MD. TAMIM RAHMAN FATMI

About

I am a conscientious, enthusiastic, and effective American International University-Bangladesh undergraduate student studying Computer Science and Engineering. I am eager to pursue a career as a software engineer and am a diligent worker. I think I have the skills necessary to work effectively. I am able to pick up new information rapidly and adapt to any technology as needed. Via a variety of software development projects, I am passionate about expanding my knowledge and developing my talents.
